

MANUFACTURER LINE CARD / CRITICAL INFRASTRUCTURE

Power, cooling, and monitoring for the systems that can't go down.

Access specifies, supplies, installs, and services mission-critical power, thermal, and monitoring systems — utility feed to the rack. Every line on this card is one we engineer with, commission, and support after install.

200+ YEARS COMBINED ENGINEERING EXPERIENCE	1993 SERVING CRITICAL FACILITIES SINCE	24/7 EMERGENCY DISPATCH & LIFECYCLE SUPPORT
--	--	---

01 / POWER Power Systems High- and medium-voltage transformers, switchgear, UPS, generators, transfer schemes, busway and distribution — sized against real load and coordinated so a fault clears where it should.	02 / HVAC HVAC & Thermal Precision cooling, containment, and air management that hold tight tolerances where heat is what takes the room down.
03 / MONITORING Monitoring & Metering Every critical asset connected and reporting in real time, with alarms that escalate to a person and history worth something after the incident.	04 / SUPPORT Service & Parts Genuine parts, preventive maintenance, startup and commissioning, and 24/7 emergency support long after install.

INDUSTRIES SERVED

Data centers & colocation	Healthcare	Industrial & manufacturing	Water & utilities	Education & government

SCAN FOR
CAPABILITIES

Lines we represent, by capability

01 Backup & Uninterruptible Power

- Vertiv
- Generac

UPS, generators, static switches, lighting inverters

02 Power Control, Transfer & Switchgear

- Vertiv
- ASCO Power Technologies
- Power Quality International
- Generac
- E&I Engineering (Vertiv)

ATS, switchgear, switchboards, paralleling

03 Distribution, PDUs & Cable

- Vertiv
- PDU Cables
- E&I Engineering (Vertiv)
- Geist (Vertiv)

Busway, rack PDUs, under-floor assemblies

04 Power Quality, Metering & Surge

- Electro Industries / GaugeTech
- Raycap
- Power Quality International
- C3 Green Energy
- Southern Tier Technologies
- Packet Power

Meters, submetering, SPD, transient protection, power factor correction

05 Monitoring & Visibility

- Vertiv
- Packet Power
- Critical Labs
- Electro Industries / GaugeTech
- PDM — Power and Data Management

Wireless sensing, DCIM, alarming, reporting

06 Thermal, Racks & Containment

- Vertiv
- Southern Tier Technologies
- Great Lakes Racks (Vertiv)
- Bard

Precision cooling, enclosures, aisle containment

07 Energy Storage & Efficiency

- Vertiv
- VYCON
- C3 Green Energy
- Southern Tier Technologies

Flywheel and battery storage, energy optimization

08 Integrated & Turnkey Systems

- Vertiv SmartRow / SmartCabinet / SmartCloset

Prefabricated rooms, rows, cabinets, and buildings

MODEL-LEVEL SCOPE

Ask us for part numbers, lead times, and territory on anything listed — a line may appear in more than one category.

SALES & ENGINEERING
